

# Privacy Policy - Cybercube

This Privacy Policy applies to Cybercube (hereafter “the Company”) and describes how the Company collects, maintains, uses and discloses personal information in relation to the Company’s existing and former clients.

Cybercube (hereafter “we” or “us”) is a Cybercube PTE. LTD. at Griffith Corporate centre, Beachmont, Kingston St. Vincent & Grenadines. It operates through the website Cybercube.io (hereafter “the Website”).

Cybercube does its utmost to ensure that the privacy, confidentiality and security of its clients are preserved both throughout their interactions with the company and afterwards, to the fullest extent achievable by the company.

## Explanation of personal data

1. Cybercube collects email addresses and names (hereafter “Personal Data”) of individuals who decide to sign up for the Cybercube Newsletter. These are data that can be linked to the identity of an individual person.
2. Cybercube is at all times responsible for the management of the Personal Data provided by each User and will make every effort to protect these Personal Data. In the event of a data breach, Cybercube will immediately inform the User of that event via the email address known to it and make every effort to prevent further distribution of these Personal Data.
3. The User has the right at all times to receive the Personal Data provided by him / her to Cybercube in an orderly manner from Cybercube ("right of access"). On the first request of a User, Cybercube will forward his / her Personal Data to a third party to be designated by that User ("right to data portability") or remove it entirely from its system ("right to be forgotten").
4. Any questions that a User may have regarding his Personal Data can be asked to Cybercube

## Use of personal data

Any personal information you provide to the Company will be treated as confidential and shared only within the Group and/or within the Company, its affiliates and its business partners and will not be disclosed to any third party except under any regulatory or legal proceedings as well as to third parties that solely provide statistical services to the Company to improve its marketing campaign. Website tracking systems may also collect data detailing the pages you have accessed, how you discovered this site, the frequency of visits and so on. The information the Company obtains is used to improve the content of our Website and

may be used by us to contact you, by any appropriate means, and to provide you with any information we believe may be useful to you.

The personal information that you provide in connection with registering yourself as a user of the Website or of the Services is classified as “Registration Information”. Registration Information is protected in many ways. You can access your Registration Information through a password selected by you. This password is encrypted and known only to you. Your password must not be revealed to anyone.

Personal information provided to the Company that is not “Registration Information” also resides on secure servers and is again accessible only to authorized personnel via password. This information cannot be online accessible by you, therefore no password shall be selected to view or modify this information.

## **Use of cookies**

A cookie is a text file or files containing a small amount of information that are sent to a web browser and stored on the User's device. Such devices include a computer, a mobile phone or other devices with which the user visits the Website.

Cookies can be persistent and are stored on the computer until the User deletes them, or temporary (such cookies are called “session cookies”), which means that they are stored only until the browser is closed. In addition to this, cookies are divided into basic (they are installed directly by the visited Website) and third-party (installed by other sites) types.

You should consider the following:

- When the User visits the Website again, the cookie data will be updated.
- In most cases, the default web browser allows automatic storage of cookies on the User's device.
- Disabling cookies may lead to access restriction to published materials or defective functioning of the services of the Website.

The Company cares about its users and tries to make the stay on the Website as comfortable as possible, and for this purpose, the Company needs to use cookies to analyze the behavior, preferences and interests of the User. Such analysis will help the Company improve the experience of interacting with the Website, determine the most convenient interface and navigation of the Service.

The Company uses the following categories of cookies:

- Strictly necessary cookies that the User needs to navigate the webpage and, when using certain services, for example, to access protected pages, register and authorize, search the Website. They also remember the previous actions of the User when going to the previous page in the same session.

- Performance cookies - aggregate information about how the Website is used. This data is stored on the User's device between web browser sessions. Examples of such data can be the following metrics: time spent on the Website, the most frequently visited pages, understanding which sections and services of the site were most interesting to the User, how effective this or that advertising or marketing campaign is.
- All of the information collected using performance cookies is intended for statistical and analytical purposes. Some of the cookie data may be provided to third parties that have permission from the website, and exclusively for the above mentioned purposes.
- Functional Cookies - used to save parameters or configurations that are stored on the user's device between web browser sessions. Examples of such data may include the following metrics: username, profile photo, information on comments left, site language, location, whether the user has been provided with any information or selected benefits previously, as well as other Website settings. These cookies also allow users to watch videos, participate in interactions and use social networks. To make the experience after visiting the resource more pleasant, these cookies remember the information provided by the user, increasing the efficiency of interaction with the Website. Some of the cookie data may be provided to third parties that have permission from the website, and exclusively for the above mentioned purposes.
- Targeting Cookies - used to provide content that may interest the user. This data is stored on the User's device between web browser sessions. Examples of such data can be the following metrics: tracking, recommended text, graphic, audio and video materials in order to avoid repeated impressions, managing targeted advertising, evaluating the effectiveness of advertising campaigns, information about the User's visit to other resources during transitions, as well as other Website settings.

The Website may share this information with other parties, including media clients, advertisers, agencies and related business partners, in order for them to provide quality targeted advertising.

### **Disclosure of Personal Data**

Cybercube will never disclose any private or otherwise confidential information in regards to our current or former clients to third parties without the express, written consent of our clients, except in such specific cases in which disclosure is a requirement under law and/or when the Company believes that disclosure is necessary to protect our rights and/or to comply with a judicial proceeding, court order or legal process served on our Website or is otherwise necessary in order to perform verification analysis on the client's identity for the purposes of safeguarding their account and securing their personal information.

The Company will not be liable for misuse or loss of personal information resulting from cookies on the Website that the Company does not have access to or control over. The Company will not be liable for unlawful or unauthorized use of your personal information due to misuse or misplacement of your passwords, negligent or malicious, however Contacted.

### **Transfer to third parties**

Cybercube does not give Personal Data of Users to third parties.

### **Data security**

Cybercube makes use of appropriate technical and organizational security procedures, among other things to ensure that unauthorized persons do not gain access to Personal Data and to prevent the loss, unlawful use, or modification of Personal Data.

### **Consent**

By accessing the Website, you consent to the Company collecting, maintaining, using and disclosing personal data about you and provided by you or by another person as in accordance with this Privacy Policy.

### **Change Privacy Statement**

Cybercube reserves the right to amend this Privacy Statement. Every modification will be announced via website. By making use of the website after making changes you agree to a modified Privacy Statement. Keep an eye on this page for all changes.
